【Course Objectives and Focus : 授業の到達目標及びテーマ】			
<p>The purpose of this course is to understand the concept and significance of international cooperation. This lecture is divided into two parts. The first part is to learn and understand the international cooperation mechanism including Official Development Assistance (ODA), Technical Cooperation, Participatory Development Process etc. Also, actual development projects implemented by United Nations (UN) and Japan International Cooperation Agency (JICA) are introduced. The second part is to overview international volunteer activities paying attention to roles of NGOs as well as cooperate social responsibility (CSR).</p>			
【Course Summary : 授業の概要】			
<p>At the beginning, students will watch relevant videos to understand basic points on each theme. Then, the instructor makes a briefing on the theme as an introduction and open the floor for free discussion if feasible. In order to facilitate the discussion, the instructor gives you some questions time to time. Finally, the instructor summarizes the discussion to confirm if the students understand main issues of the theme.</p>
