Semester 学期	Spring	Credits 単位	2
Course Level 履修年次	N/A	hrs/wks 時間数/週	2
【Course Objectives and Focus : 授業の到達目標及びテーマ】			
The aim of this course is to acquire a better understanding of the cultural exchange between Japan and the Western world. Lectures, readings, and excursions are designed to promote open discussions between students and to help them gaining a global view of the cultural varieties between the East and the West and understanding its dynamics in a historical context.			
【Course Summary : 授業の概要】			
This course explores examples of the cultural exchange between Japan and the Western world, from the 16 th century until the present. The first half of the course (Lessons 1-8) examines the encounter of these two different worlds by focusing on the cultural impact of art objects and artists, which/who went overseas and were incorporated in a different cultural and social context. The second half of the course (Lessons 9-14) takes a closer look at modern/contemporary Japanese architecture in dialogue with Western European and American architecture. The excursions on the campus will provide students with an important opportunity to have a first-hand examination of historical sources and architecture.			
【 Preparatory Work : 準備学習等についての具体的な指示】			
Students are expected to prepare themselves for each class session through reading the assigned readings/literature and through personal orientation (checking the internet on a subject, for example) *A mid-term assignment/report is required on an object/source from the museum's collection (see Course 6) or the museum building's architecture (see Course 11)
