Semester 学期	FALL 2022	Language of Instruction 使用言語	ENG	Credits 単位	2	hrs/wks 時間数/週	2

【Course Objectives: 授業の到達目標】

After successfully completing this course, the student will:

- 1) acquire vocabulary and basic knowledge of cognitive psychology, and
- 2) be accustomed to discuss with foreign students in English.

【Course Summary: 授業の概要】

In this class, you would study about main themes of cognitive psychology; perception, memory, thinking, and emotion. Lessons are all given in English. In every lesson, you would discuss with other students about the topic of the day after a lecture. This class is open to Japanese students, so you would discuss with Japanese students in English.

【Study Required outside Class (Preparation etc): 事前・事後学習】

Reference materials in English would be available before class via moodle (online platform), so you need to read them beforehand. After class, materials used in the class (files of handouts and presentation slides) will be also available via moodle, so you can review the class with them.
