【Note: 履修上の注意】

In this class Japanese and international students work together basically using Japanese. For students who have never studied Japanese before, this class may be challenging. If you will follow us with great effort, of course, you are very welcome.

As discussion with your groupmates is essential in this class, regular attendance is necessary. Absences will result in points being deducted not only for attendance, but also for class participation points, activity points and reflection points.

When you miss the class, you need to inform me and group member of the reason by E-mail or LINE as soon as possible.
