【Course Objectives: 授業の到達目標】			
This course is designed for students at the JLPT N3–N4 level.			
It aims to develop students' ability to listen, think, and respond spontaneously in Japanese without relying on their native language when discussing themselves and familiar topics.			
Through various activities, they will deepen their understanding of Japanese culture and society.			
By interacting with peers from diverse backgrounds, students will enrich their understanding of both Japan and one another’s cultures.			
【Course Summary: 授業の概要】			
In each session, students will practice conversation on a variety of topics with both classmates and Japanese university students.			
Vocabulary quizzes will be administered twice a week. The vocabulary and expressions learned in class will then be applied in subsequent conversation practice and class activities.			
The course includes on-campus surveys and off-campus experiential learning activities, followed by student presentations on their findings and experiences.			
Students will also visit a local elementary school to introduce their own countries and cultures.			
As a final project, students will create a video summarizing their study abroad experience.			
【Study Required outside Class (Preparation etc): 事前・事後学習】			
Vocabulary Review: Thoroughly learn the vocabulary and expressions covered in quizzes, as they will be used in subsequent activities and conversation practice.			
Assignments: Complete all writing tasks and slide presentations as scheduled.

【Note: 履修上の注意】			
All classes in this course will be conducted entirely in Japanese, including group work and conversations with classmates. Since many activities extend over multiple sessions, regular attendance is essential. Each absence will result in a 2-point deduction from the final grade. Additionally, three late arrivals will be counted as one absence.
